Student Names: _____

GLIDER A GLIDER B ← CHECK-IN (UP TO 2 GLIDERS)

Construction Parameters:

T	F	T	F	3.a.	If kits are used, they do not contain any pre-glued joints or pre-covered surfaces.
T	F	T	F	3.b.	The blunt nose of the fuselage, when inserted into a lip balm cap with inside dimensions of ~1.57 cm deep and ~1.37 cm wide does not touch the end.
T	F	T	F	3.c.	Boron filaments are not used in construction of the Glider and boxes.
T	F	T	F	3.d.	The Glider in its flight configuration fits fully into a lidless, team-provided Measurement box with external dimensions 32.0 cm x 24.0 cm x 47.0 cm, including any external protuberances on the box.
T	F	T	F	3.e.	Total mass of the Glider throughout the flight must be between 3.5 g and 10 g.
T	F	T	F	3.f.	Launch Handle(s), excluding elastic, is less than 1 m long in any orientation, supported completely by one student, and is a safe configuration. The
T	F	T	F	3.f.	The elastic used in the Launch Handle is non-metallic, is in contact with the Glider throughout the launch, and remains on the launch handle.
T	F	T	F	3.g.	Participants are able to answer questions on design, construction, and operation of the device per the Building Policy found on www.soinc.org .

1. T F 2. T F ALL CONSTRUCTION PARAMETERS ABOVE ARE MET

FLIGHT PERIOD (6 MINUTES)

Competition Parameters:

T	F	4.b.i.3	No practice flights are flown in the final half-hour of the event's last period. (Except for trim flights during a team's 6-minute Flight Period)
T	F	4.b.ii	Participants do not receive outside materials, assistance, or communication once they enter the cordoned off competition area to trim, practice, or compete (Except as permitted by the Event Supervisor). If false, team will be ranked below all other teams.
T	F	4.e.ix.	Participants do not steer the Glider during flight.
T	F	4.e.x.	Students are on the floor to launch and do not use artificial aids to increase launch height (other than the launch handle).

3. T F ALL COMPETITION PARAMETERS ABOVE ARE MET

FLIGHT LOG

4. Is the Flight Log complete, partial, or not present?

Complete (1.2x bonus multiplier)

Partial (1.1x bonus multiplier)

Not present

5.a. *Flight Log includes 4 or more parameters*

(estimated/recorded peak flight height after launch; approximate length of elastic (relaxed); flight time and at least 1 more chosen by the team) with data for 10 or more test flights prior to the competition.

5.b. *All numeric data includes units.*

1 ST FLIGHT	2 ND FLIGHT	3 RD FLIGHT	4 TH FLIGHT	5 TH FLIGHT	(OFFICIAL FLIGHTS)
5. A B	9. A B	13. A B	17. A B	21. A B	Which glider was used?
