

Team Number: _____ School & Team Name: _____

Student Names: _____

PLANE A PLANE B ← CHECK-IN (UP TO 2 AIRPLANES)

Construction Parameters:

T	F	T	F	3.a.	If kits are used, they do not contain any pre-glued joints or pre-covered surfaces.
T	F	T	F	3.b.	Boron filaments are not used in the construction of the airplanes or boxes.
T	F	T	F	3.c.	The airplane in its flight configuration fits fully into a lidless, team-provided Measurement box with external dimensions 32.0 cm x 24.0 cm x 47.0 cm, including any external protuberances on the box.
T	F	T	F	3.d.	No change in chord, span, length, or total lifting area occurs after removing the airplane from its box and throughout the flight itself.
T	F	T	F	3.e.	Total mass of the airplane, excluding the rubber motor(s), is 8.0 g or more.
T	F	T	F	3.f.	Variable-pitch propellers that include mechanisms that actively change the propeller diameter or blade angle are not used.
T	F	T	F	3.g.	All airplane lifting forces are generated by wing(s).
T	F	T	F	3.h.	The sole power for the airplane come from the rubber motor(s) that remain attached to the airplane throughout the flight.
T	F	T	F	3.h.i	The total mass of the rubber motor or rubber motor set, including attachments such as O-rings, does not exceed 1.5 g.
T	F	T	F	3.i.	Participants are able to answer questions on design, construction, and operation of the device per the Building Policy found on www.soinc.org .

1. T F 2. T F ALL CONSTRUCTION PARAMETERS ABOVE ARE MET

FLIGHT LOG

3. Is the Flight Log complete, partial, or not present?

Complete (1.2x bonus multiplier)

Partial (1.1x bonus multiplier)

Not present

5.a. *Flight Log includes 6 or more parameters (motor size before wind-up; number of turns on launch or torque at launch; flight time; and 3 more chosen by the team) with data for 10 or more test flights prior to the competition.*

5.b. *All numeric data includes units. Torque units may be arbitrary.*

FLIGHT PERIOD (10 MINUTES)

Competition Parameters:

T	F	4.b.i.3	No practice flights are flown in the final half-hour of the event's last period. (Except for trim flights during a team's 10-minute Flight Period)
T	F	4.b.ii	Participants do not receive outside materials, assistance, or communication once they enter the cordoned off competition area to trim, practice, or compete (Except as permitted by the Event Supervisor).
T	F	4.e.ix.	Participants do not steer the helicopter during flight.
T	F	4.e.x.	Students are on the floor to launch and do not use artificial aids to increase launch height.

4. T F ALL COMPETITION PARAMETERS ABOVE ARE MET

1ST FLIGHT

5. A B

2ND FLIGHT

7. A B

(OFFICIAL FLIGHTS)

Which plane from above was used?

6. ____:____.____

8. ____:____.____

← Median Flight Time of 3 timers
(minutes:seconds)

9. T F General Rule: The team is disqualified. (Notify the team and their coach as soon as possible.)
